1. Accounts for the month of November 1887 showing—

Receipts	..	7,643—1—9
Expenditure	..	5,541—12—9

were read and approved.

2. The Board observed that while the charges for interring unclaimed dead bodies were borne by the Municipality, the sale proceeds of property found with them were credited to Government.

Resolved that Government may be moved for an order transferring the charge to Government account or the receipts to Municipal account also.

3. Read Chief Secretary's letter No. 1979, dated 27th November 1887, forwarding Dewan's Memorandum on the Mysore water-supply distribution scheme which has received the sanction of His Highness the Maharaja of Mysore, and the Sanitary Engineer's letter No. 1334, dated 6th December 1887, on the same subject.

Resolved that a list be made out of all the places which the Sanitary Engineer marks out as fountains are proposed to be erected. That this list be circulated to the respective Mohalla members and that a meeting be convened thereafter to discuss the list and settle the matter finally.

4. With regard to the question of the best means of imposing a water-tax, the following members were desired to join themselves into a Sub-Committee for inquiring into the schemes in force elsewhere and to report upon a proposal for Mysore by the 15th February.

Members.

Mr. Abdul Rahman.

1. Accounts for December showing—

Receipts	..	4,463—3—3	Expenditure	..	6,519—1—10

were read and passed, with the remark that the differences in the receipts from octroi in December 1887 and December 1886 needed explanation. (*Note.*—The Vice-President will prepare a memorandum and circulate it).

2. Read letter No. 1176, dated 26th November 1887, from the Military Secretary, desiring that the land between the road to Railway Station and the Jivanmayankatte, (opposite the Siladars' lanes) may be placed at the disposal of the Military Department, &c.

Resolved that the grant of the ground for the purposes specified is objectionable, alike on considerations of sanitation and public convenience. The present use of the ground by the Siladars is itself under objection, and the Board contemplate a representation to the Military Secretary against its present use by the Siladars which has formed the subject of complaint.

3. Read Chief Secretary's Docket No. 5682—553, dated 24th December 1887, regarding the pay of Assistant Surgeon Miss. Gardial Singh.

Resolved that the Chief Secretary be informed in reply that the Board fully recognize the necessity for the appointment of a Lady Doctor and that they would willingly bear the extra cost of Rs. 100 which it is suggested the Board should contribute: but in the present financial condition of the Municipality, the Board are unable to bear the charge of Rs. 106 per mensem, and request that Government may be pleased to bear half of this amount of Rs. 106, the Municipality bearing the other half. When the Municipal Act is passed and Municipal resources developed, the financial position of the Municipality would be better than it is now.

4. A re-appropriation of budget grants and transfer of savings from budget heads to clearing Dodkere and Karanji tank feelers, &c., was sanctioned.

5. *Resolved* that it is premature to consider a proposal to shift the Vinayaka temple at the northern entrance of the fort.

6. Read application from the Stage Manager Subba Rao, Chamarajendra Karnataka Nataka Sabha, regarding the rent fixed for use of the Rangacharlu's Memorial Hall on performance nights.

Resolved that the matter has already been disposed of, and there is no reason to reconsider it.

7. The question of filling up the places of the two non-official members who never attend Municipal Board's meetings was deferred to next meeting for want of time.

8. Letter No. 303, dated 20th December 1887, from the Superintending Engineer of Mysore, was next read, regarding the location of the front block of the design of the proposed new market at Mysore and the preparedness of the Municipality to re-model and re-construct the rear stalls if Government bear the cost of the front row of buildings as desired. Mr. Standish Lee, the Sanitary Engineer, Mysore Special Improvements Division, was present and kindly explained the details of the scheme. The members adjourned to the site of the new market and considered the question on the spot.

Resolved that the Superintending Engineer be written to in reply to say that if the Government consent to bear the cost of the proposed front rows of buildings, the Municipality will be prepared to bear the cost of re-constructing and re-modelling the rear stalls, and that they would prefer the frontage being located as proposed by Mr. Lee, so that the distance between it and the Dufferin Fountain may be equal to the distance between the latter and the existing street houses opposite and that this will trench seriously on the road to the Hospital, need not be an objection, because the road can be widened and straightened and the Sivarampete corner rounded off, in pursuance of a long cherished intention. The Board consider symmetry and space round the Dufferin Fountain a great factor in the determination of the position of the market frontage.

Accounts of the Mysore Municipality for the month of December 1887.
